

The Facts Behind Our T-Series Innovation!

- FACT:** **Taditel** is the first supplier to bring the ASVR technology to GM "OE", the Aftermarket and Ford voltage regulators.
- FACT:** **Taditel** produces the market's most robust regulators.
- FACT:** **Taditel** concepted and designed the unique AD regulator to rectifier B+ connection, improving the OE Delphi design.
- FACT:** The unique B+ connection works so well that **Taditel** has patents pending on the AD Regulator and Rectifier.
- FACT:** **Taditel** T-Series products provide OE quality and reliability for the severe aftermarket environment.
- FACT:** **Taditel** products are proven - by performance!
- FACT:** Some aftermarket suppliers claim they know ASVR; however, **Taditel** is the company that REALLY knows ASVR technology!
